LITERACY & MATHS:

Over the next few weeks I will be working with students on improving their overall comprehension skills.

Keep an eye out in their bags for some comprehension bookmarks that are directly in line with their current reading level.

Students have worked hard the last two weeks extending their patterns and algebra skills. I have noticed a dramatic improvement from all students and they should all be very proud of their achievement. Next week we move towards 'Place Value'. Students will work on: factors, multiples, estimation skills alongside multiplication of one or two digit numbers

RESILIENCE PROJECT:

Yesterday all students went to KWPS to listen to our guest speaker Martin Heppell. We learnt about being grateful for what we have, rather than what we don't have. Our students came away feeling very grateful and this was nice to see in their reflections.

The parent info night for this program is on Monday the 29th April at 7pm at Kooweerup Secondary. I will be going to this also to represent the school. I hope to see lots of you there.

IMPORTANT REMINDERS:

Reading each night:

Please remember to encourage your child to read for 20 minutes each night. If they do this, each year they will be exposed to 1.8 million words! How awesome is that!

- Icy-poles: Icy-poles are still for sale each day on the deck. They are 50c each..
