

5/6B NEWSLETTER-2019

Date: 5th April, 2019

Literacy:

In reading the past few weeks we have looked at the strategy, inferring. Inferring requires readers to use prior knowledge and the information stated in a text to draw conclusions. We have learnt and demonstrated in class that all individuals will infer differently based on their experiences.

Maths:

This week we completed our Addition post tests. I am so proud of all the outstanding results that we have achieved as a class. Everyone has worked extremely hard this term. Next term we will dive further into Subtraction, Shape, Data and Whole Numbers.

Easter Bonnet Parade:

Thanks to everyone who participated in our Easter Bonnet Parade this week. A special thanks also to our Y5s who spent some time with the Kinder children. The relationship between the Y5s and Kinder children is built early on in the year to ensure a smooth transition next year.

Notes to remember:

Over the holidays: Please continue to encourage your child to read over the school holidays.

Icy-Poles-Icy-poles will still be on sale next term, whilst the weather allows it. Alternate ways to raise money for the Y6s throughout winter are still being discussed so we ask that you please be patient with this process and we will contact everyone when we know more.

Parent helpers: A big thank you to all our parent helpers for Term 1. We now have enough parents helping throughout the week for Term 2. If this changes I will be sure to ask for more volunteers.

Superkid Award – A very big congratulations to Kaylee for receiving our very first Superkid award for the year. This is a massive achievement for all students and 5/6B is proud of each of the students in the other grades who also received this award.
