

# 1/2 NEWSLETTER-2019

Date: Friday 14th of June 2019,

## Literacy:

### Writing

We have started our new writing genre, procedural writing. Students have been exposed to a range of activities that have required them to think critically about the words they use when giving instructions. They have shown great understanding of that you need to be very specific to ensure the reader is following your steps in the way you would like them to.

We have also undertaken a hands on learning procedural lesson which allowed students to understand the text structure and vocabulary we use. We did this though following the recipe 'How to Make Lemonade'.

### Reading

Students have been introduced to the term Voracious Reading as their focus CAFÉ Strategy. Which means showing great passion to read books that interest them, as well as being focused on their reading without distractions and interruptions.

We will be giving students 10-15 minutes a day, on top of their reading sessions to read a good fit book of their choice.

## Maths:

We have started our Data and Representation unit which students have surveyed, tallied, graphed and are learning to analyse the information from questions posed by their teacher. Students have worked in their focus groups with great enthusiasm and have either graphed information about pets or their eye colour, depending on which group they are in.

Students have also learnt about the topic of shapes. Some students have looked at two-dimensional and others three-dimensional.

They have been able to name numerous shape, identify their features (sides, faces and edges), as well as using real world examples to where they may find these shapes in everyday life.
